Dear Sir:

The copy of Dr. Gray's Revision is at hand. Please accept my thanks.

There are some very important reasons why I should get the Mss of my Flora of Cook County, etc. into the printers hands as soon as possible

I am anxious to have it confirm with the new Edition & shall hold it till the New Edition of the Manual is issued. It would involve me a great deal of time and would aid me very materially if I could obtain, in some way, advance sheets of the Manual.

Do the Directors think that many visits to Ithaca will be about the size of the Cayuga Flora.

Very respectfully yours
W. K. Higley.
